DETAILED ACTION

Response to election

An election was made with traverse to prosecute the claims 1-28, 67-76 and 95. Therefore, claims 29-66 and 77-94 are withdrawn from further consideration by the examiner as being drawn to the non-elected claims.

Reasons for Allowance

Claims 1-28, 67-76 and 95 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claims 1, 67 and 73, the closest prior art of record, Tanaka et al (Fig. 1) does not disclose the following limitations: the relationship between the at least one input signal and the timing of state transitions in the switching power stage is non-linear.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Patent numbers (6,768,376; 6,232,833; 6,064,259) are the switching amplifiers with the comparators.
